Secondary School Of Certificate (7.7 CGPA)

Project

Nxt Watch   project1_link

Technologies used : React JS, JavaScript, CSS, Bootstrap, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication.
Developed the Nxt Watch platform, a YouTube-inspired application where users can access various video categories, such as Trending, Gaming, and Saved videos, and search for specific content while customising the visual theme.

- Crafted a responsive UI with React components for pages like Login, Home, Trending, Gaming, and Saved videos, utilising event handlers and form inputs.
- Established user authentication through username/password input and HTTP API calls, maintaining login state with JWT tokens and local storage.
- Enabled secure navigation using React Router components for protected routes, redirecting unauthenticated users to the login page.

Nxt Trendz (ECommerce Clone - Amazon, Flipkart)

Technologies used : React JS, JS, CSS, Bootstrap, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication

Rolled out an innovative e-commerce platform patterned after Amazon and Flipkart.

- Designed pages for Login, Products, and Product details with React Router and React components.
- Ensured user security through JWT tokens, REST API calls, and local storage.

Food Munch

Technologies used : HTML, CSS, Bootstrap

Discover the world of food with this responsive website that showcases a comprehensive list of food items.

- Designed with a user-centric approach, this website features HTML structure elements and Bootstrap components to ensure a seamless experience.
- Get a closer look at the food items with product videos, available at the click of a button.

My Kitchen

Technologies used : HTML, CSS, Bootstrap, React.js, Node.js, mongoDB

● Description: My Kitchen is a personal full-stack project, driven by a passion for culinary delights and inspired by leading food delivery applications.
●Seamlessly integrating both client and server-side functionalities, myKitchen offers a comprehensive culinary experience from browsing to delivery.
●In this application mainly contains of five Components (Home , login ,signup ,my Cart ,my Checkouts).Every component have its own feature.

Experience

DMC PRO.in (Web Developer)
May 2024 - Aug 2024
Hyderabad, Telangana

● Website Development: Played a key role in the development and maintenance of the company's official website, ensuring a seamless user experience and robust functionality.

●Tourism Website Project: Contributed significantly to the development of a comprehensive tourism website, which included creating engaging layouts, integrating interactive features, and optimizing for user engagement.

● Version Control with Git: Utilized Git for version control to manage code changes efficiently and collaborate effectively with team members.

●Throughout the internship, I honed several key skills:

● Collaboration: Worked closely with team members in a remote setting, improving my communication and teamwork skills.

● Project Management: Learned to manage tasks and deadlines effectively, ensuring timely delivery of project milestones.

NxtWave (Teaching Assistant)
Apr 2024 - Jul 2024
 Manikonda, Nanakramguda, Telangana 500032, Telangana

● I have assisted students in resolving issues related to HTML, CSS, and responsive web design.
● Worked independently to manage and address student queries, enhancing their learning experience and satisfaction
